

2021-2022 SCHOOL YEAR PLAN

SAINT PETER SCHOOL

PREK-8TH GRADE ELEMENTARY | ESTABLISHED 1927

INTRODUCTION

Catholic schools provide an environment in which we consistently model Gospel values and Church teachings and traditions in the image of Jesus Christ. All students experience an academically challenging curriculum that helps them to grow closer to God by learning about themselves and His world, while preparing them to succeed at every level. At St. Peter School, our mission is to teach, nurture, and model Gospel values in the Catholic tradition, while promoting individual growth and academic excellence.

We believe that this mission is best carried out when students, faculty, and staff can be together, in person, as a Catholic community. This belief was reinforced during the 2020-2021 school year, when parents and their children, along with the leadership, faculty, and staff of our school, made personal sacrifices every day for the good of all members of the community so that the majority of students could be in school every day from September through June. We were blessed to have been able to meet our goal of having as many students as possible come to school every day safely. In the process, we learned much that has influenced our preparations for the 2021-2022 school year. Our goal for the coming school year remains the same, and we will welcome all students back to the classroom in September. Our process for achieving that goal is influenced by the lessons we learned last year, a review of current guidelines, data on the status of COVID-19 in our community, and input from public health officials, educators, parents, and others.

We have created this plan to aid families as they prepare for the 2021-2022 school year and to guide our decisions, procedures, and protocols as a school community. It is intended to help employees, students, and families understand how we will promote health and safety together to reduce the potential impact that COVID-19 may have on our community. **It is expected that as the COVID-19 pandemic continues, new guidance may mean that aspects of this plan will need to be updated or changed.** Therefore, necessary updates will be made to this plan based on information provided by local public health officials, guidance from the Centers for Disease Control and applicable federal, state and local agencies, and our experience of how well it is working every day in school. We will inform all members of the school community of changes as soon as they occur.

GUIDING PRINCIPLES

In order to ensure the continued well-being of our employees and students, the following principles are the foundation that guide our planning:

- 1) Protect the health and safety of St. Peter School students, faculty, staff, and families.
- 2) Sustain the Catholic faith communities that distinguish our schools and drive their success.

- 3) Maximize student learning through best practices in the classroom and, if necessary, temporary remote learning instruction and assessment.
- 4) Maintain flexibility to respond to changing circumstances based on lived experience in the school and guidance from state, public health, and medical leaders in response to the progression of COVID-19 in our community.

In addition to these principles, our school is a Catholic community. As such, we are used to depending on one another. The school leadership and faculty are taking on many actions and activities to promote the safety of our community. In order for this plan to be effective, it is important that parents and students continue to take seriously our responsibilities to one another, just as we all did last year. All individuals will be asked to take actions that protect their health and that protect the health of others. The plan will have the best opportunity for success when we all continue to work together – when we all respond to Jesus’s commandment to love our neighbor as we love ourselves.

PART I: PROMOTING HEALTH AND SAFETY

The health of students and all members of the school community is the top priority that ensures all other aspects of the Catholic school program can be delivered. The expectations provided below are intended to help all members of the St. Peter School community to do their part to keep themselves and each other safe and healthy.

During the 2020-2021 school year, the NJ Department of Health established the Regional Risk Matrix to describe the risk of transmission of COVID-19 in six regions of the state. St. Peter School is located in the Southwest region. Risk levels are low, moderate, high, and very high. Each risk level includes recommendations for additional health and safety measures.

Health and safety expectations for St. Peter School for the 2021-2022 school year are subject to change based on the risk level for our region or if evidence of the spread of COVID-19 within a classroom here or at any school in the diocese emerges.

SCHOOL SCHEDULE AND ARRIVAL

The official school schedule is:

- School opens for Before Care at 6:30 am
- Doors open for grades K-8 at 7:30 am
- Morning prayer begins at 7:50 am
- Preschool begins at 8:00 AM (doors open at 7:50)
- Half day dismissal for Pre-K is 11:20 am
- Full day dismissal for Pre-K is 2:20 pm. Dismissal for K-8 is at 2:30 pm. (Afternoon prayers begin at 2:25 pm).
- After Care is available until 6:00 pm.

Arriving by Car

The drop off pattern will begin at the Chestnut Avenue entrance. Parents will form a car line along the back of the parking lot behind the church, looping around past the waste dumpsters, then behind the church, and then at the drop off station near the alleyway entrance between the Church and the school. A staff member will assist your child in getting out of the car. A second staff member will be at the door with hand sanitizer. Please do not park in the parking lot and walk your child into school. Crossing the car line is very dangerous. Safety is our first priority!!

Arrival for Walkers

Students who are walking to school will enter through the Maple Avenue Entrance with the bus riders. A staff member will be at the door with hand sanitizer.

Arriving by Bus

Students will be expected to follow the directives of their bus drivers, which will include the wearing of their cloth masks, the use of hand sanitizer, and any seating arrangements imposed by the driver. All other directives are to be followed with respect to health and safety guidelines. Additionally, students who use the buses will be expected to enter the school building through the Maple Avenue entrance. A staff member will be at the door with hand sanitizer.

SCREENING

Identifying students, faculty, and staff who may be sick is a critical component of keeping the entire school community healthy. Identification begins before students arrive at school and continues with vigilance throughout the school day. Screening and response to symptoms require faithful citizenship and partnership between parents and the school, with all school community members doing their part to identify potential sickness and respond respectfully, swiftly, and confidentially.

Screening at Home

All parents will be expected to screen their children at home for symptoms of COVID-19 and to take their temperature to ensure that they do not have a fever over 100.4° F. If children have a fever or exhibit symptoms that are not explained by a known, non contagious prior condition, then they should stay at home. COVID-19 symptoms include:

- At least two of the following symptoms: fever of 100.4 or higher, chills, rigors (shivers), myalgia (muscle aches), headache, sore throat, nausea or vomiting, diarrhea, fatigue, congestion or runny nose; OR
- At least one of the following symptoms: cough, shortness of breath, difficulty breathing, loss of taste or smell.

For students with chronic illness, only new symptoms or symptoms worse than baseline should be used to fulfill symptom-based exclusion criteria.

Parents will also be expected to keep their children home from school if they have had close contact with a person who is lab confirmed to have COVID-19. If this occurs, parents should notify the school immediately. Close contact is considered to be:

- Within 6 feet of someone who has COVID-19 for 15 minutes or more over the course of 24 hours
- Provided care at home to, or visited, someone who is sick with COVID-19
- Direct physical contact with the person (touched, hugged, or kissed them)
- Shared eating or drinking utensils
- They sneezed, coughed, or somehow got respiratory droplets on you

VENTILATION

Ensuring proper ventilation at our school is an important component of maintaining health and safety for all members of the community. Increasing the amount of fresh air and air flow when indoors can help to reduce the concentration of the virus that causes COVID-19 in classrooms and other indoor spaces if it is found there.

St. Peter School will be implementing the following measures to ensure proper ventilation at the school.

- Opening windows and doors to increase outdoor air flow.
- Ensuring that filters are maintained and changed according to manufacturer recommendations.
- Maximizing the outdoor air intake for window air conditioners.
- Using portable high-efficiency particulate air (HEPA) fan/filtration systems to enhance the cleaning of circulating air.
- Taking students outside frequently for classes and other activities.

PERSONAL PROTECTIVE EQUIPMENT

Personal protective equipment is an effective means to provide protection from infection with the virus that causes COVID-19. Personal protective equipment will be used at St. Peter School when necessary to promote the health and safety of the community.

Masks

Masks can be an important component of maintaining health in the school, especially when community spread of COVID-19 is high and students are more likely to encounter COVID-19 outside of school.

In alignment with recommendations from the CDC and the American Academy of Pediatrics, on August 6, 2021, Governor Murphy signed Executive Order 251 which requires that all staff, students, and visitors wear a mask, regardless of vaccination status, in the indoor premises of

school buildings. This requirement applies to all public, private, and parochial schools. Students will not be required to wear masks when outdoors, provided they are maintaining social distancing.

All students, grades Pre-K through 8, will be required to have a cloth mask with them at school every day. Students will be required to wear the mask when they are indoors. Exceptions to wearing the mask are when eating snacks and lunch. Each family will be responsible for providing appropriately sized masks for their children. Each student should have an extra mask with them at school at all times. Students are not restricted to any particular color or pattern for their mask.

All students and adults on school buses must wear a mask, by requirement of the US Department of Transportation.

SOCIAL DISTANCE

Social distance involves maintaining a specified distance from all other individuals to ensure that large droplets that are exhaled and may contain the coronavirus do not reach other people. The minimum social distance that will be maintained in classrooms and other spaces in the school is 3 feet.

It is critical that all school personnel and parents remain vigilant in reminding students of their responsibility to each other to maintain a social distance in case they are carrying the virus and may be able to unknowingly transmit it to others, even if they do not have symptoms.

Social Distancing in Classrooms

We have taken every measure possible to ensure the maximum distance between students in each classroom. These measures include removing furniture to ensure desks are a minimum of 3 feet apart.

Social Distancing in Other Areas of the School

In addition to social distancing measures in classrooms, we are implementing the following procedures and protocols:

- Physical Education/Gym Class will be held outside as weather permits. Students will participate in activities that maximize distance. Masks do not need to be worn when class is held outside or when students are participating in high-intensity physical activities and are able to maintain a physical distance of six feet from other individuals.
- The number of students who can enter the restroom at any time will be limited to ensure adequate social distancing.
- Student movement through the school will be limited to essential movement (e.g., to use the restroom, to get to/from classes).

PERSONAL HYGIENE

In addition to PPE and social distancing, each member of the school community will be expected to take responsibility for his or her personal hygiene, including responsibility for personal belongings and space. Teachers will provide instruction and allocate time in the classroom to ensure that students understand and can take these responsibilities seriously.

Hand Washing and Hand Sanitizing

Keeping hands clean is one of the most important defenses against the spread of all sickness, including COVID-19. The virus may survive for a period of time on surfaces that students touch throughout the day. For this reason, it is critical that students, teachers, and staff wash or sanitize their hands regularly.

- Each class will have a regular schedule, including before and after all meals or snacks, for students and teachers to wash their hands for at least 20 seconds or to use hand sanitizer with at least 60% alcohol to sanitize their hands.
- Hand sanitizing stations will be set up in the following locations:
 - In each classroom
 - At all entrances and exits to the school building
 - At the entrance to the school office
 - At the entrance to or in the nurse's office
 - At the entrance to or in the faculty lounge
 - Additional sanitizing stations will be set up in the gym, and the hallway.
 - Please note: Pastor's Hall will **not** be used for lunch
- Each student should have a personal bottle of hand sanitizer and a personal container of sanitizing wipes for use in his or her personal space.
- Teachers will reinforce hand washing and the importance of students avoiding touching their faces and masks, particularly with those in the primary grades.

Personal Space and Belongings

Personal responsibility is an important skill for students to develop and exercise as a defense against the spread of COVID-19. Students have a responsibility to each other that they demonstrate through hand washing, social distancing, and the use of masks when appropriate. Taking responsibility for their own belongings and contributing to cleaning their workspaces are additional ways that students can be accountable to each other for maintaining the community's health.

- All students will need to have their own set of school supplies.
- Each student's belongings will be separated from others' and in individually labeled containers, cubbies, or areas. Individual teachers will establish the protocol that works best for their students given their age and supplies. Where supplies must be shared, such as science lab equipment, computers, or math manipulatives, only one group of students will use those supplies at a time.
- When students use spaces that may be used by others, they will wipe down the space with a disinfecting wipe after they use it.

Students will return to switching classrooms as they have in the past for different subjects. We will closely monitor the impact of these procedures on student health and make adjustments, including returning to teachers switching classrooms instead of students, if necessary.

FOOD SERVICE AND RECESS

Food service, including lunch and snacks, and recess are important opportunities for students to socialize and exercise during the school day.

Lunch and Snacks

Students will eat their lunch in their classrooms. We will continue with our contact-free lunch option if parents wish to purchase lunch for their child. Parents that do not wish to purchase lunch are expected to pack lunch for their students, including snacks that they may wish to pack for After Care. Lunch will be taken in student classrooms each day; students will be instructed to clean up after themselves, and an onsite staff member will provide additional support in cleaning classrooms after lunch. Students will continue to enjoy their normal morning snack break in the same manner.

Recess

- Students will not be required to wear masks for outdoor recess or breaks. They may wear them if they feel more comfortable doing so.
- Students will wash or sanitize their hands after recess.
- Students may use playground equipment, provided that the equipment is sanitized before and after recess.

BEFORE CARE AND AFTER CARE

We will continue to offer before care and after care. We ask that only those families who need these services use them, and that they not be used for convenience. Students in before care and after care will be grouped with family members or members of their homeroom class to reduce the number of interactions across groups of students.

SCHOOL MASSES

St. Peter intends on continuing its great tradition of school Masses each week. In order to do this in a safe manner, we have determined the following:

1. Live attendance of the school Mass will be optional. Students with parent permission in grades 5-8 who wish to attend will be afforded the opportunity to go. These students will watch the Mass in the Lower Church and be able to receive Holy Communion.
2. With parental consent, select choir members may sing at the Mass.
3. The remainder of the school will watch the Mass live streamed via the parish Facebook page.
4. All students will be encouraged to reflect on the weekly readings and homilies.

VISITORS AND VOLUNTEERS

Visitors to the School

Visitors to the school during the school day will be limited to individuals with official business at the school (e.g., contractors, service, sales). All visitors to the school will be required to provide their name and contact information and will be required to wear a cloth mask and maintain social distance while on the premises at all times.

HEALTHY FACILITIES

An important part of maintaining the health of the school community is ensuring that the school grounds and systems support the health of students and employees. St. Peter School will continue our attention to the cleanliness of the school grounds, facilities, and environment.

Enhanced Cleaning and Disinfection

We have developed protocols to ensure that all areas used by students or staff are thoroughly cleaned and disinfected every day.

Classrooms will be cleaned and disinfected at the end of each day. This includes:

- All desks, tables, and chairs
- Bookshelves, windows, and blackboards/whiteboards
- Carpets (vacuum) or floors (mop)
- Frequently touched objects, (pencil sharpeners, coat hooks, door handles, light switches)

For classrooms that are used by multiple classes, including shared use spaces, frequently used objects (e.g., doorknobs, pencil sharpeners) and all student seating (chairs, desks, tables) will be disinfected after every class. Students will disinfect their desks/seats with a disinfecting wipe before the next student uses them.

Bathrooms will be cleaned and disinfected twice daily, including at the end of the day.

In addition, frequently used objects in common spaces, offices, and other rooms throughout the school will be disinfected each day.

There are several additional measures that will be taken before and during the school year to ensure enhanced disinfection and sanitation:

- St. Peter will maintain an on-site cleaning staff member to disinfect various rooms, including the bathrooms, at various times during the day.
- Students and staff will also share certain responsibilities in daily cleaning such as:
 - the wiping down of desk surfaces throughout the day
 - the use of UV disinfectant wands when wipes are not available (for staff only)
 - periodic wiping down of lockers
 - wiping down of any shared devices or supplies before and after usage

If the school building or classrooms are used by other groups after normal school hours (e.g., parish religious education), then surfaces will be cleaned by students at the end of the day as they would after a class and professional cleaning will occur after the building has been vacated by all groups for the day.

PART II: MANAGING POTENTIAL SICKNESS

St. Peter School is taking the precautions above to limit the transmission of sickness, especially COVID-19. However, we recognize that some students and/or staff may still show symptoms of COVID-19, or students, employees, or their family members might be exposed to or test positive for COVID-19. Our response will be conducted in collaboration with the Camden County Department of Public Health.

RESPONSE TO COVID-19 SYMPTOMS

Students and Employees who Show Symptoms of COVID-19 in School

Any adult or student who shows symptoms of COVID-19 upon arrival at school or at any time while they are in the school building will enter a protocol to protect them and other members of the school community that will result in their leaving the school building as soon as practicable.

- Students, employees, and any other adults in the school will enter an isolation area if they show symptoms of COVID-19.
- All students, employees, personnel, and others in the isolation area will wear a mask and gloves and maintain a 3 foot distance from each other as practicably as possible.
- A parent, guardian, or authorized adult will be called to pick up any student who shows symptoms of COVID-19.
- Students will be isolated safely and respectfully, with continued supervision and care and respect for their privacy, until an authorized adult can pick them up. The isolation area will be thoroughly disinfected after it is used by symptomatic students.
- If symptoms appear after the school day has begun, the teacher and students will wash their hands thoroughly and immediately
- The Camden County Public Health Officer will be notified that an individual with symptoms that are potentially due to COVID-19 has been sent home. This contact will be made confidentially to protect the individual.
- The County Public Health Officer will advise the school about whether or not any additional steps, such as asking other students to self-quarantine, need to be taken. It is important to understand that such decisions will be made on a case-by-case basis, depending on the circumstances. Not every case of an individual with symptoms that are potentially due to COVID-19 will lead to self-quarantine for other individuals, a class, or the school.

- Students and staff who show symptoms that could be attributed to COVID-19 will be advised to seek the advice of a physician about whether isolation is necessary and will be required to have a negative COVID-19 test before returning to school.

Students and Employees who Show Symptoms of COVID-19 Outside of School

Students or employees who show symptoms of COVID-19 outside of school that are not explained by a known, non contagious prior condition, should not come to the school and should visit a physician to determine the cause of the symptoms. Symptoms include:

- At least two of the following symptoms: fever of 100.4 or higher, chills, rigors (shivers), myalgia (muscle aches), headache, sore throat, nausea or vomiting, diarrhea, fatigue, congestion or runny nose; OR
- At least one of the following symptoms: cough, shortness of breath, difficulty breathing, loss of taste or smell.

Students or employees who exhibit COVID-19 symptoms, whether at home or in school, must obtain a molecular/viral/PCR or antigen COVID-19 test before returning to school.

- Students or employees who show symptoms of COVID-19 and receive a negative COVID-19 test, and whose doctors do not also prescribe another confirmatory test, may return to school with the negative COVID-19 after 24 hours have passed without symptoms, including fever-free without medication. If the absence is longer than 3 days, the individual is required to provide a doctor's clearance to return to school.
- Students or employees who show symptoms of COVID-19 and receive a positive COVID-19 test may return to school after 10 days from the date the sample was taken, if they have been symptom free for 24 hours, including fever-free without medication.

If a member of the school community receives a positive test for COVID-19, it is imperative that the individual (if an employee) or his or her parent (if a student) contact the school so that the school can conduct proper contact tracing and inform the rest of the school community. The school principal, nurse, or other staff will send a letter to the school community confirming that someone who has been in the school tested positive for COVID-19 and will conduct contact tracing (see below) to determine whether any students or adults are considered close contacts and recommended to quarantine. Any student recommended to quarantine will be contacted separately by the school.

CLOSE CONTACT WITH COVID-19

Close Contact at School

If someone who has been in the school building tests positive for COVID-19, the school will conduct contact tracing in collaboration with the Camden County Department of Health. Some students and/or teachers may be considered close contacts and advised to quarantine for a number

of days, depending on the date of the contact and the regional risk level at the time of contact. The beginning of the quarantine period will generally be the date of last contact with the person who tested positive for COVID-19. Close contact is considered to be:

- Within 6 feet of someone who has COVID-19 for at least 15 cumulative minutes over 24 hours, regardless of whether masks were worn
- Provided care at home to, or visited, someone who is sick with COVID-19
- Direct physical contact with the person (touched, hugged, or kissed them)
- Shared eating or drinking utensils
- They sneezed, coughed, or somehow got respiratory droplets on you

During times of low or moderate risk, individuals who are advised to quarantine by a physician or a public health official are expected to stay in the home for a period of 10 days, or 7 days with negative test results collected at 5-7 days. During times of high risk, the quarantine term will be 14 days. Quarantine may be longer if the individual shares living space with a person diagnosed with COVID-19. Students who do not show symptoms during this period will be expected to participate in school remotely.

Students and staff members who are fully vaccinated will not be required to quarantine unless they show symptoms of COVID-19.

Close Contact Outside of School

It is critical that any member of the school community who has had close contact with someone who has tested positive for COVID-19 outside of school alert the school as soon as possible. The school will work with the Camden County Public Health Officer, while maintaining confidentiality, to determine the length of any quarantine period necessary. This includes employees of the school, students, volunteers, and family members of students.

Students and staff members who are fully vaccinated will not be required to quarantine unless they show symptoms of COVID-19. However, even if a student or staff member who is a close contact of someone who tests positive for COVID-19 is fully vaccinated, it is important that the individual inform the school.

PART III: SUSTAINING ACADEMIC EXCELLENCE

Academic excellence is a hallmark of Catholic schools. We will adapt and continue some changes to instruction for the 2020-2021 that were effective in helping all students learn. Most students will be in classrooms, onsite for the 2021-2022 school year, with temporary remote learning available only for students who are positive for COVID-19 or have to quarantine due to close contact. It is also possible that the progression of COVID-19 in our community and/or in the state may require us to transition to full time remote learning for all students temporarily as we did during the 2020-2021 school year. The instructional plan leverages technology so that instruction and learning are as fluid and transferable as possible between onsite and remote learning.

EDUCATIONAL TECHNOLOGY

Continued strategic use of technology will allow teachers to personalize learning and also provide instruction that is fluid across onsite/in classroom learning and at home.

Hardware

Presently, St. Peter School utilizes Chromebooks mini-tablets and/or I-Pads for the benefit of its students. We have a “Bring your own device” policy for grades 3-8. Our hope is that this will: a) reduce the spread of communicable disease through shared device usage; and b) relieve the pressure of Chromebook shortage during the course of the day. Last, all classrooms at St. Peter are equipped with a combination of Smartboard, Smart TV, and sophisticated webcam technology in order to implement the various learning options for the coming year.

Software

The use of instructional software will aid teachers in understanding student progress and learning, personalizing learning, and organizing assignments for students.

- All students in Prek-8 will use Google Classroom during the school day.
- Google Classroom will be used to organize instruction.
- All students in Grades PreK-8 will use IXL as a regular part of their in-school learning experience and for homework. Students in grades 3-8 will also learn and utilize Kami for digital submissions via Google Classroom. Additionally, teachers in grades PreK-2 will also use Seesaw and BrainPop. Last, students in all grades will use a variety of free tools, such as Quizlet and Flipgrid.
- Login information for all student accounts will be shared with students and parents to ensure access.

CURRICULUM, ASSESSMENT, AND INSTRUCTION

- St. Peter School will continue to follow the curriculum for the Diocese of Camden.
- All students, grades 1-8, will participate in the Star Assessments in Reading and Math to help teachers and parents continue to identify their growth and customize their learning.
- All teachers will use the educational technology infrastructure and the expertise they developed last year to incorporate blended learning into their classrooms to the extent possible. Blended learning incorporates technology into instruction to assist teachers with personalizing instruction for all students. Blended learning in the classroom can also help prepare students for learning at home, if necessary.

REMOTE LEARNING

We anticipate that there may be a need for temporary remote learning during the 2021-2022 school year for students who have a positive COVID-19 test or who have been in close contact with someone who tests positive for COVID-19. Therefore, we will support temporary remote learning

when necessary for students who are in need of it so that students learning at home can stay as up to date with their learning as possible.

Temporary Remote Learning Criteria

Students who are informed by the school or a public health officer or department that they need to quarantine due to exposure to COVID-19, and those who have tested positive for COVID-19 but are healthy enough to participate in class, will be able to participate in temporary remote learning.

Temporary remote learning is intended to serve students who are out for health reasons (such as COVID-19-related isolation or quarantine) for longer than they would be in a typical year. Students may not choose not to come to school for reasons other than illness and learn remotely on that day. Temporary remote learning will not be available for any reason other than close contact or a positive COVID-19 test. Students who are out sick with COVID-19 symptoms but do not yet have test results will not have access to live remote learning. Temporary live remote learning will also not be available for students who are home sick for non-COVID reasons, for students who travel, or for any other reason. The school reserves the right to request verification of the need for temporary remote learning (e.g., positive COVID-19 test result for a family member) before approving it.

Temporary Remote Learning Process

There will be a 2 day transition period to participate in temporary remote learning once it is determined that the student needs to remain out of the school building. This transition period will allow teachers to prepare and/or adapt their schedules and lessons to accommodate the students who will be participating remotely.

The intent of temporary remote learning is to ensure continuity of education for students who are out of school. Teachers will do their best to ensure that students are as up to date as possible with their learning while they are quarantined.

- Each classroom is set up with videoconferencing capabilities so that students can be “live” in the classroom through Zoom.
- Students who are learning remotely and in the classroom with both have access to lesson materials using Google Classroom.
- Teachers will schedule their classes as consistently as possible every day so that students who may be learning remotely will be able to follow the schedule to participate in class.
- Schedules, assignments, time for remote students to be “live” in the classroom, and approaches will vary according to the age and grade level of the students.

Mandated Remote Learning

It is possible that during the 2021-2022 school year, one or more classes or the whole school, will be advised by public health officials to close temporarily due to the presence of COVID-19 cases so that members of the school community can self-quarantine. It is also possible that St. Peter School will be ordered to close temporarily due to the progression of COVID-19 in the region or state, as it was during the 2019-2020 school year.

In the event that the school is advised or ordered to enter remote learning status, teachers and classes will adhere to the following guidelines:

- We will continue the use of Google Classroom established for in-class and remote learning. Using it in school regularly should make access to and completion of assignments at home easier.
- The schedule for the remote learning school day will continue as seamlessly as possible from the schedule for in-classroom learning, with live teaching and learning scheduled every day.
- The same comportment expected of students while in school will be expected during remote learning. This includes the expectation that the students are dressed and groomed and seated at a desk or table, as free from distractions as possible.
- We are committed to making remote learning, if necessary, as close to the classroom experience as possible to ensure that teaching and learning are continuous and students progress as expected regardless of the learning environment.

ATTENDANCE

The attendance policy will be adapted for the 2021-2022 school year to accommodate students who may be learning remotely. When in-classroom learning is occurring, attendance will be marked as: Present, if in school; Remote, if learning remotely (present for live teaching and turning in assignments within class time expectations), or Absent, if home and too ill to participate.

If the school building is closed for all students due to advice from a public health official or an order, then attendance categories will be Remote or Absent. It is expected in this scenario that students learning remotely will attend all live instruction and submit all assignments on the deadlines expected. Students who are sick or who do not attend classes and do not submit assignments will be marked as Absent.
